HIGH-QUALITY KOMPERDELL PRODUCT

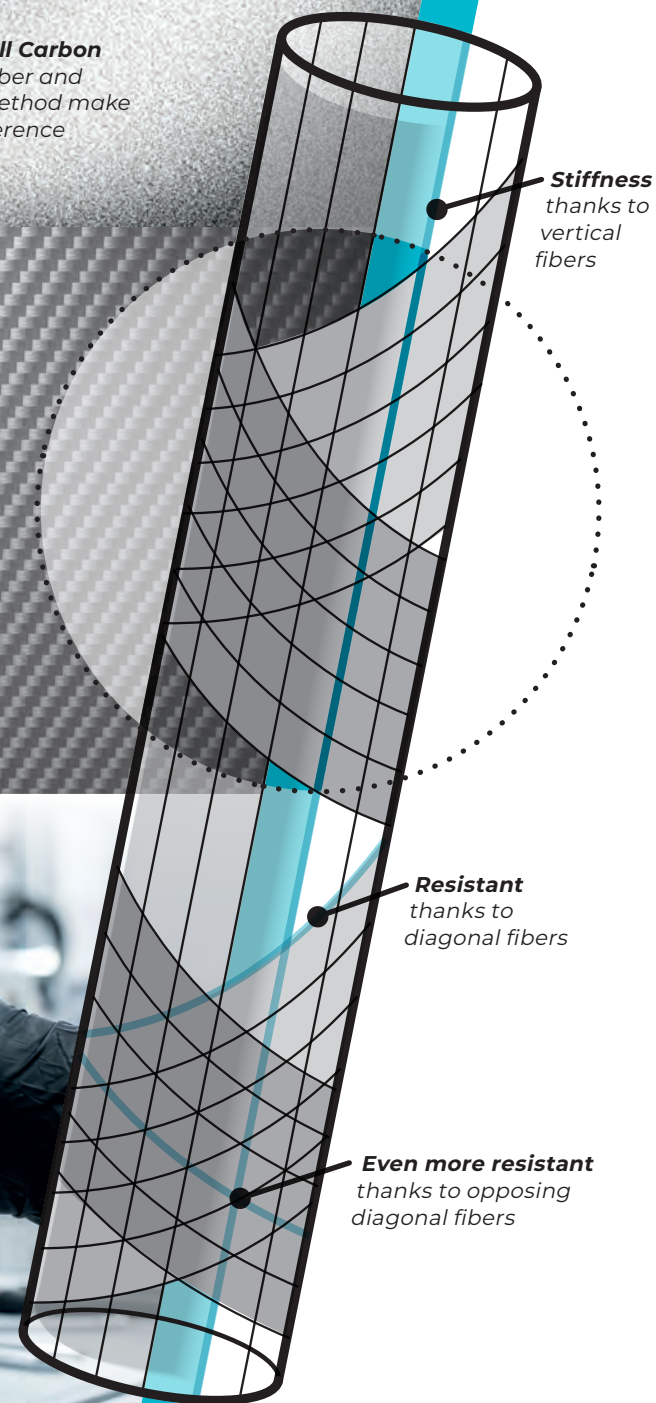

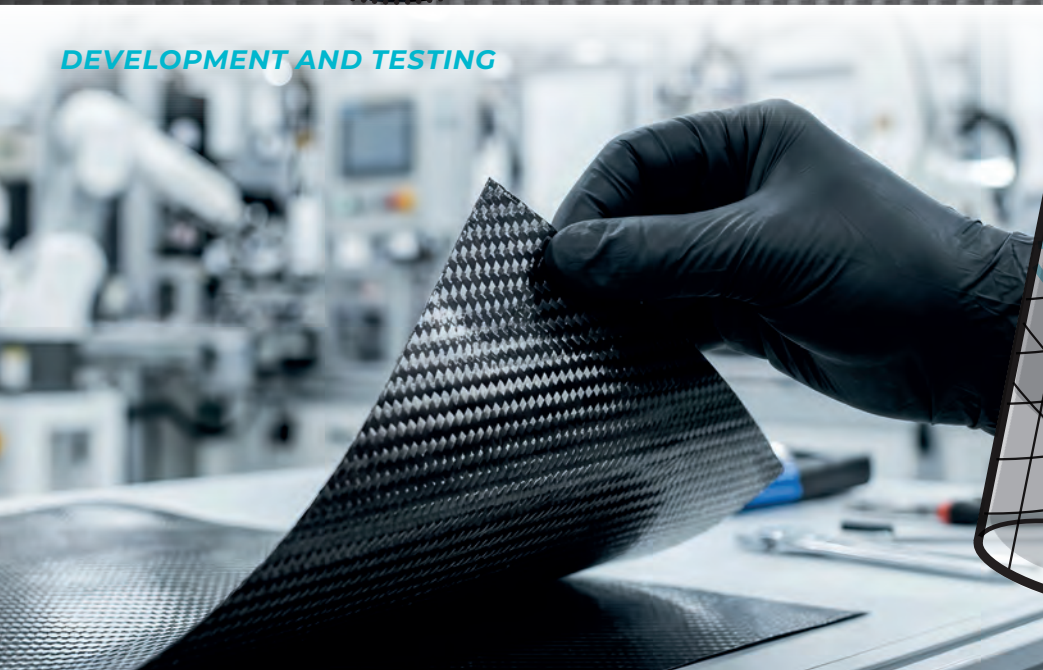

Komperdell Carbon
The right fiber and winding method make all the difference in the end

FINEST WINDING METHOD

DEVELOPMENT AND TESTING

Stiffness
thanks to vertical fibers

Resistant
thanks to diagonal fibers

Even more resistant
thanks to opposing diagonal fibers

CARBON BY KOMPERDELL

LIGHTER. STRONGER. KOMPERDELL.

Unmatched carbon expertise. We are the only manufacturer with the knowhow to develop and manufacture our own carbon shafts. Carbon isn't just carbon. To achieve the perfect balance between lightness, stiffness and break resistance, we match the ratio of carbon fibre and resin perfectly according to the area of application. A cross-country pole for example needs to be especially stiff to ensure optimal power transfer, while for a trekking or touring pole, weight is the top priority.

STRONG AS STEEL

Compared to aluminium, carbon fibers offer a significantly lower density. This makes carbon especially light, but still as hard as steel

FIBER LAYERING

By adjusting the fiber lay-up, we control the shaft's stiffness, break resistance and weight

SUPERIOR RAW MATERIALS

The spectrum of carbon fibers ranges from inexpensive pens to the most exclusive fibers used in aerospace. For our products, we exclusively use the highest quality carbon fibers used for aerospace

IT'S ALL ABOUT THE RIGHT MIX

We develop our shafts on our own and perfectly balance the ratio of fiber and resin

FX PRO

20%
more compact
pack size
compared to
standard 3-section
poles

+ ULTIMATELY COMPACT PACK SIZE

With only 2 folding segments, the new FX PRO offers an exceptionally slim pack size and can be stored space-efficiently – inside or attached to your backpack.

CARBON FX PRO

A NEW KIND OF POLE – LIGHTWEIGHT & INNOVATIVE

The self-deploying FX mechanism, proven POWERLOCK locking system with size adjustment, and one less shaft section make the FX PRO the most innovative all-round pole in mountaineering today.

Looking for the ultimate combination of durability, lightweight performance, and a slim pack size – while enjoying effortless handling and outstanding agility on the trail? Then the new FX PRO is the reliable companion you won't want to miss on your adventures.

+ ULTIMATELY LIGHTWEIGHT

High-tech materials and one less shaft section make the FX PRO a true lightweight among folding poles. With its Ø 14 mm shaft diameter, the FX PRO Nano Carbon weighs just **approx. 165 g!**

+ ULTIMATELY ROBUST

Equipped with the world's strongest telescopic locking system, POWERLOCK 3.0, the FX PRO is a reliable companion for every adventure – built to withstand even the toughest conditions.

< Folding mechanism

< POWERLOCK 3.0

+ ULTIMATELY EASY TO HANDLE

Simply unfold once, engage the locking mechanism with the push button, and adjust the desired length with the POWERLOCK 3.0 locking system – done!

**ONLY
165g!**

+ ULTIMATELY AGILE IN USE

Highly dynamic in motion – thanks to its lightweight design and optimized swing behavior for effortless movement.

CARBON FXP ULTRA

The Carbon FXP trail running poles set new standards in terms of performance, comfort and design. Completely rethought and reduced to the essentials – exactly what trail runners with the highest demands are looking for.

The combination makes the difference:
Only 14mm shaft diameter and the self-deploying FXP mechanism guarantee a smooth handling when pulling the poles out of the quiver. Ready to use in a matter of seconds.

+ ADVANTAGES AT A GLANCE

- + particularly small pack size, fits perfectly in conventional quivers
- + the minimized shape saves weight and ensures agile handling
- + our innovative Fly strap system guarantees easy handling and maximum power transmission
- + thanks to the patented FXP folding mechanism, the pole unfolds completely by itself when released

POWERLOCK HYBRID

Komperdell telescopic poles have accompanied me for decades – and they still accompany me on my tours today. Reliability every step of the way!"

Peter Habeler, alpinist and mountaineering legend

Easy handling
of the locking lever
guarantees rapid
adjustability in
extreme situations.

**The new Powerlock
Hybrid technology**
combines virtually indestructible
aluminium with a self-reinforcing
high-performance polymer. The
result: a highly robust locking
mechanism that fully meets our
uncompromising quality stan-
dards.

POWERLOCK HYBRID

STRONGER THAN THE COMPETITION

Our latest innovation, the Powerlock Hybrid telescopic locking system, may not outperform its bigger brother, the Powerlock 3.0 – but it effortlessly leaves every other locking system in its class behind. Nothing else on the market comes close. Powerlock Hybrid stands for maximum quality at a fair price.

The winner is – Komperdell!

+ NO LOSS OF CLAMPING FORCE

Sleeve made from high-performance, temperature-resistant plastic withstands even extreme temperature fluctuations.

**+ SHAPE-RETAINING
LOCKING CLAMP**

High-performance glass-fibre reinforced plastic increases stiffness and ensures high clamping force.

+ HYBRID COMBINES

the best of two material worlds, delivering light-weight performance while maintaining exceptional durability.

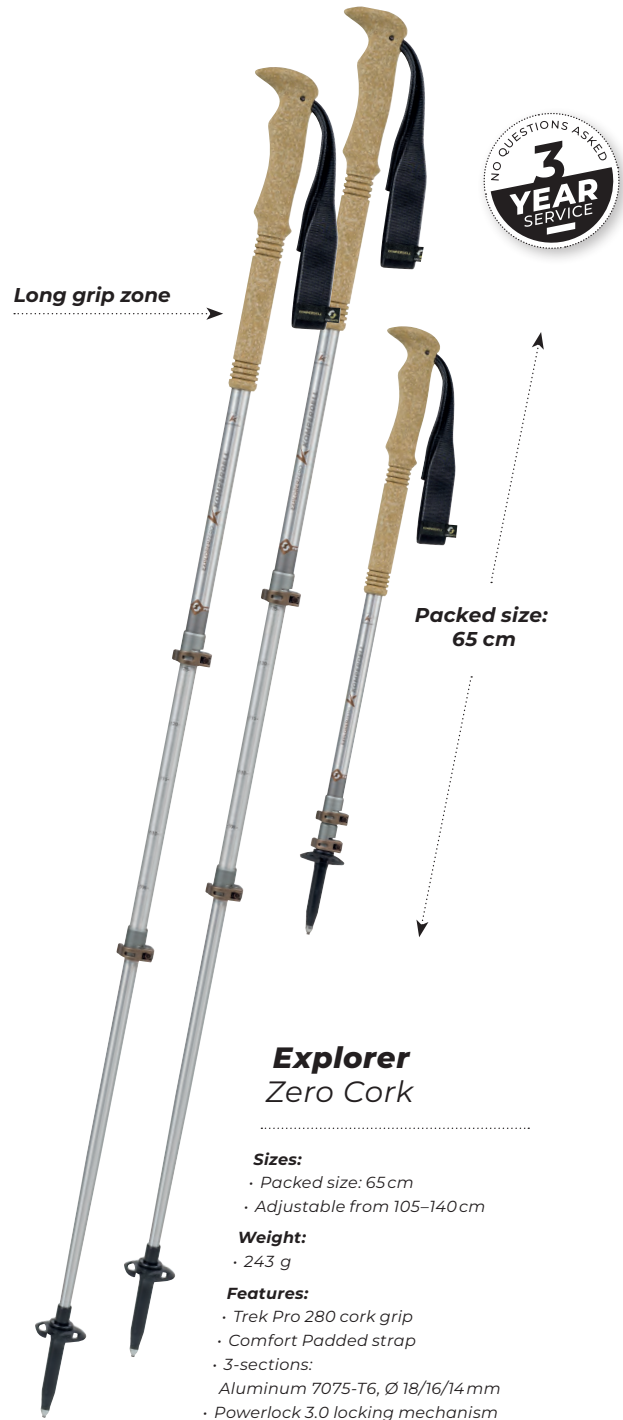

+ 100% ALUMINIUM

Clamp made from 100% forged aluminium.

+ STRONGER THAN THE COMPETITION

With up to 125 kg of clamping force, the Powerlock Hybrid outperforms every competing locking system.

ZERO WASTE

"Anyone who can put 'Made in Austria' on their products is already doing a lot right when it comes to sustainability. The fact that Komperdell offers a comprehensive repair and recycle service in addition to its zero-waste programme and resource-saving production methods is worthy of an ISPO Award."

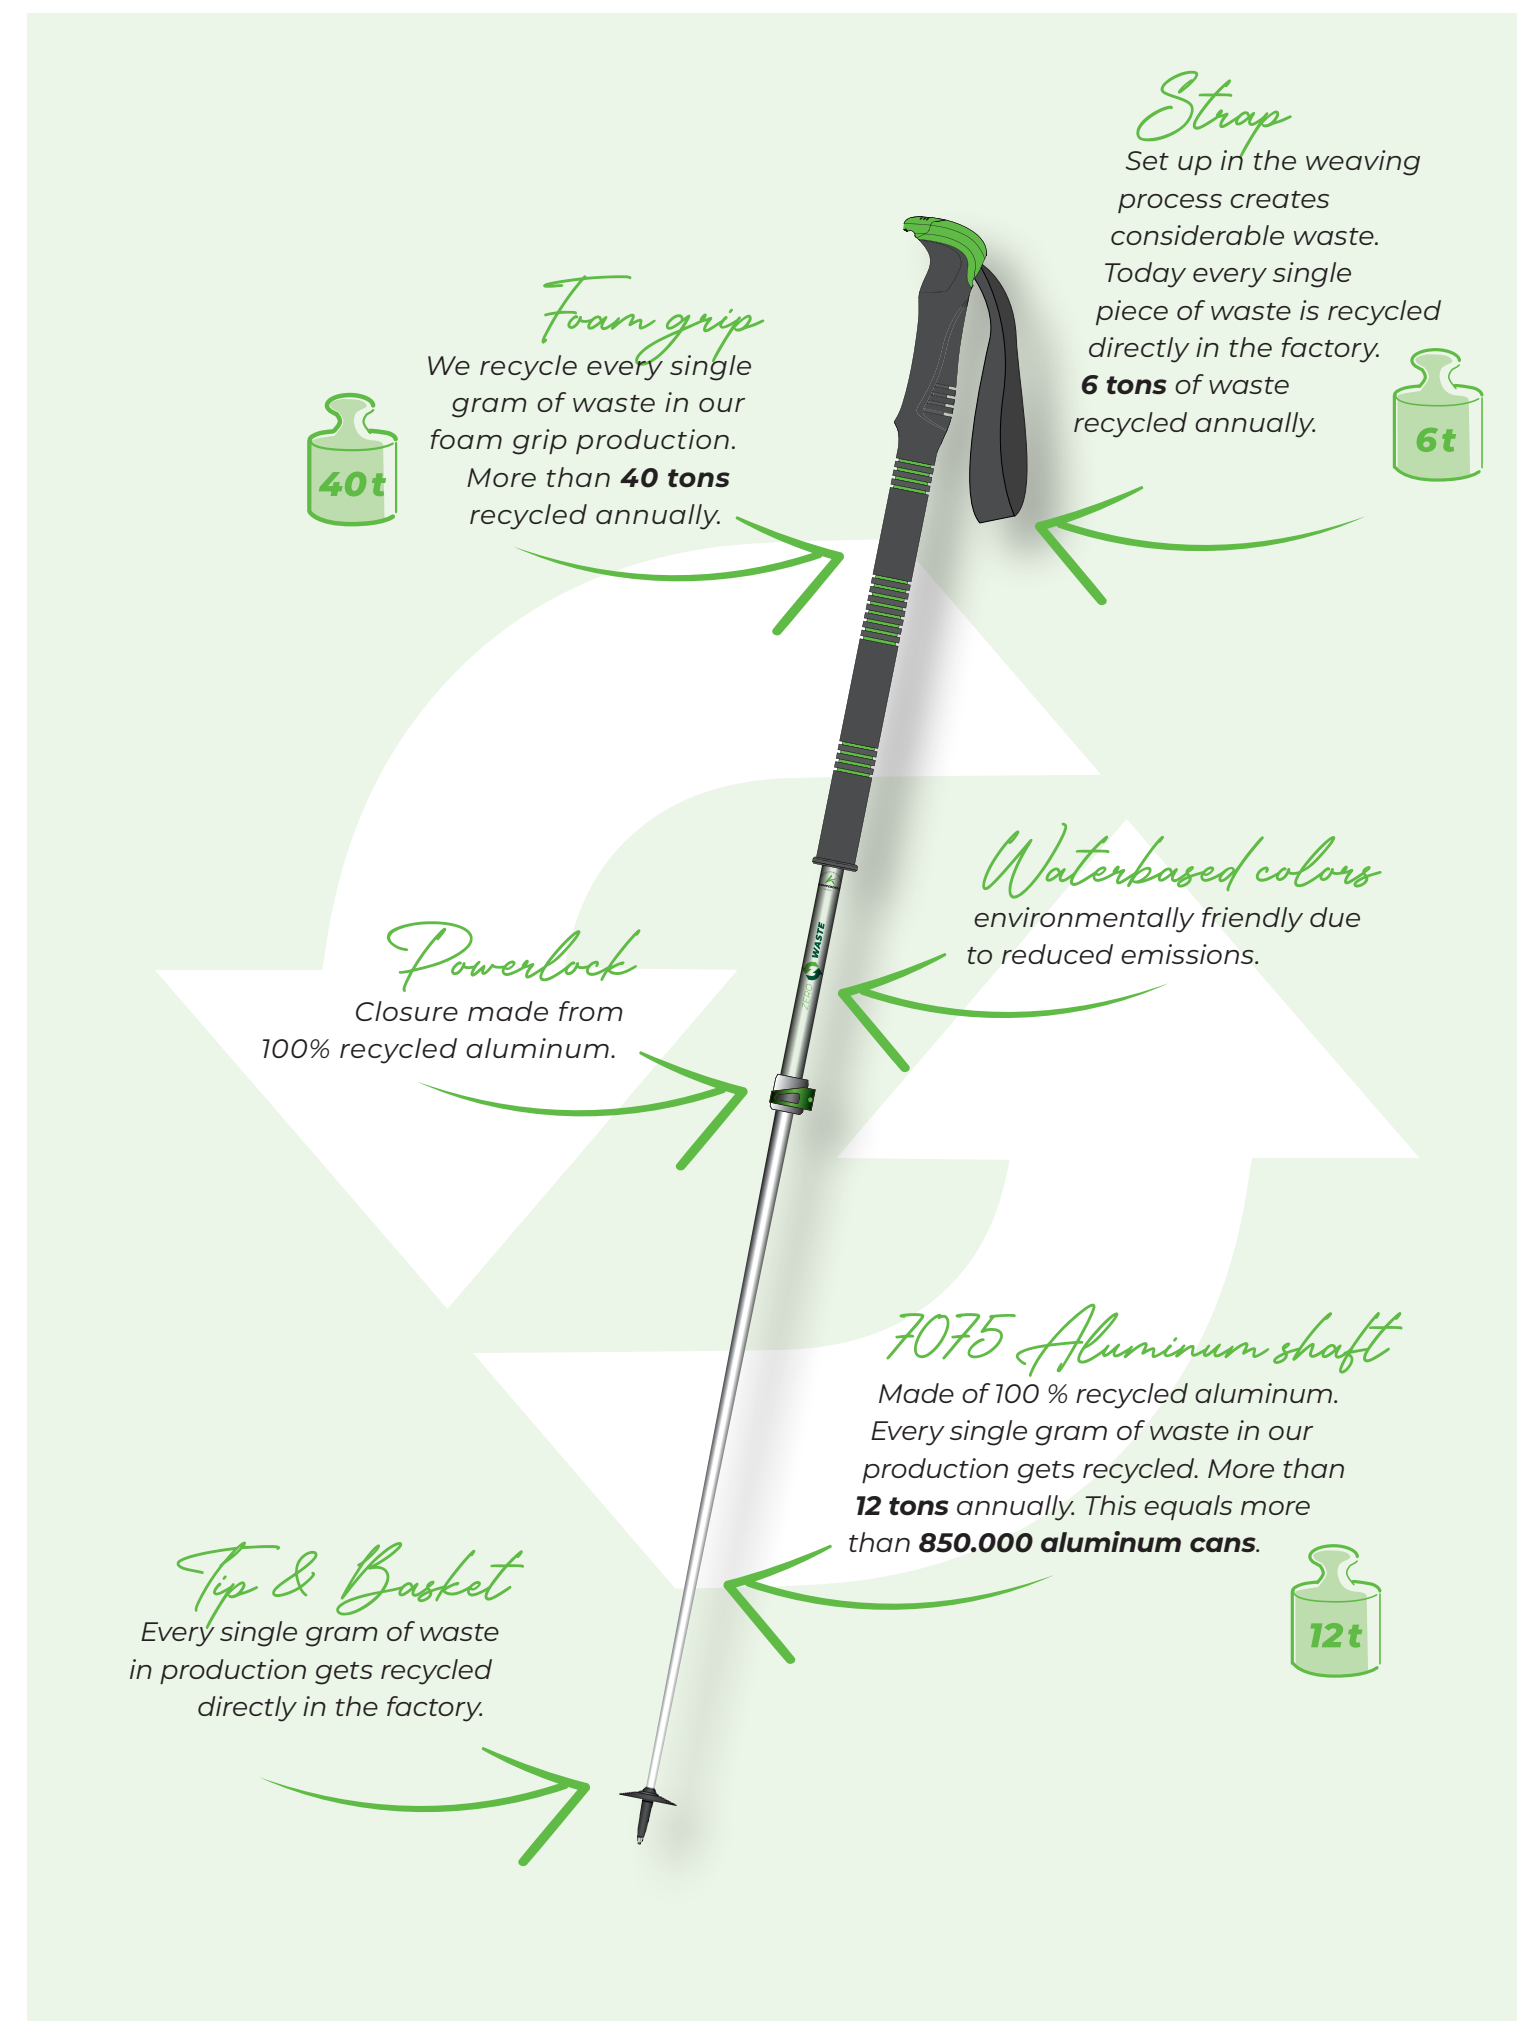

Jury Statement, ISPO Award

ISPO
AWARD
2024

WINNER

“Sustainability is not just a slogan, it’s a core belief of our company.”

Thomas Roiser, CEO KOMPERDELL

ZERO WASTE HOW IT WORKS

RECYCLE REPAIR REDUCE

Green, but honest – zero waste in production

We do not believe in labels and certificates. Our approach to a more sustainable production is simple and honest. Our goal is to produce our poles without a single gram of waste and with the smallest possible environmental impact.

REPAIR

Repairing instead of buying new

We launched our 3-year free repair service more than 15 years ago. No questions asked – no matter if it is our customers' fault or ours. Our service is part of our belief that quality products must be backed by outstanding service.

RECYCLE

Eco, but logical

If your pole can no longer be repaired, please send it back to us. We have created a dedicated recycling department as we are best suited to separate and recycle the materials in a pole.

From left to right

Thomas, Max und Raimund – a core part of the development team at Komperdell

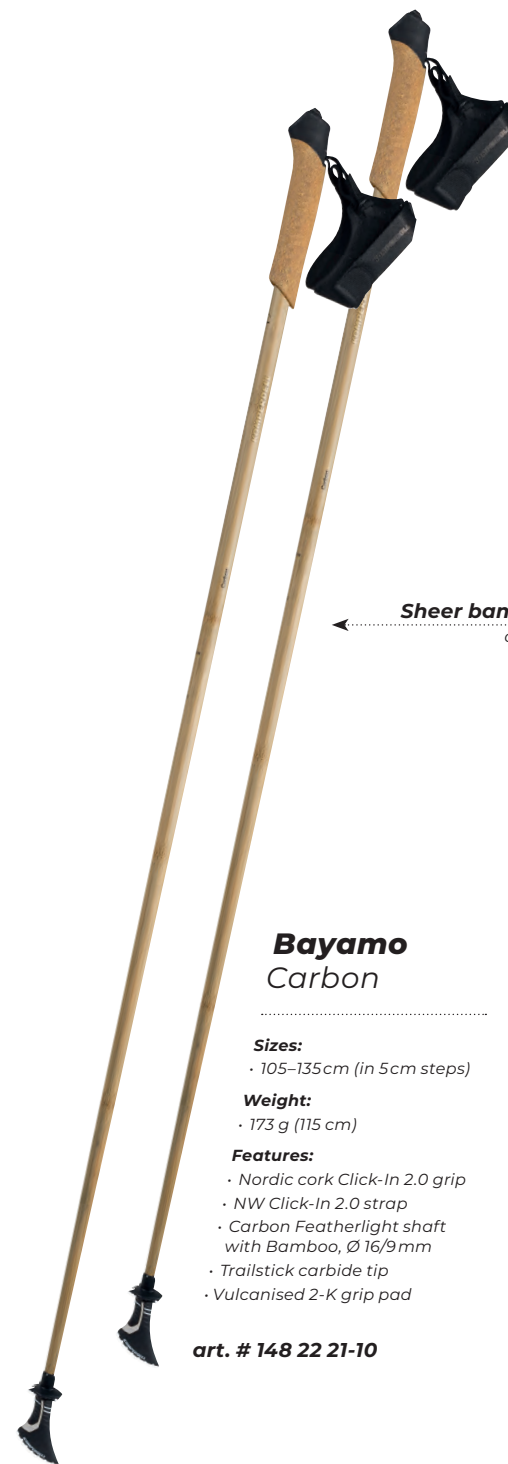

NORDIC WALKING CARBON

"With our ultralight Nordic walking carbon poles from Komperdell, your evening workout becomes pure pleasure."

Chelsea and Lukas, during their daily training session

3 YEAR FREE REPAIR SERVICE

→ REPAIRING INSTEAD OF THROWING AWAY

Our commitment to sustainability goes beyond environmentally friendly production methods and recycled materials. We take after-sales responsibility seriously through our unique repair service.

→ INNOVATIVE PIONEERS

We introduced our free 3-year repair service more than 15 years ago, long before the term sustainability became popular. We are still absolute pioneers here today.

→ WORLDWIDE UNIQUE

We repair all telescopic poles no matter what happened – without receipt and no questions-asked. Regardless if it's our customers fault or ours – we are happy to take care of it and contribute to an extended product life-cycle and to protect our environment.
