TEAMWORK WITH OUR ATHLETES

We attach importance to a close cooperation with our top athletes to enhance product development. The poles' low weight and the best possible quality explain their success.

INNOVATION

runs in our blood and a lot has changed since our first aluminum racing poles. But we do not stop here: Our future holds even lighter poles and even better materials, which will enable our athletes to be one step ahead of their opponents.

ORIGINAL RACING CARBON

We design, develop and
manufacture our own
carbon shafts.
